

How to Tune A4 Using DSU and an ETD

1. Mute one string of A4.

2. Tune the DSU clean.

3. Measure. (Go to #6 if A4 is within 1 cent of 440Hz).

4. Move one string in the direction of A4 by the amount on the ETD. *By Ear!!! NOT ETD!

5. Tune the other string so the DSU is clean. Go to 3.

6. Remove the mute.

7. Tune the trichord clean.
